

## How We 10x A Settlement for A Miami Homeowner

### Some Quick Stats:

### The Problem:

In December of 2018, the Cleare's experienced extensive damage in their kitchen as a result of a failure within their plumbing system.

The water that escaped from the broken pipe caused damage to their cabinets, flooring & baseboards. After deciding what to do, they had no other choice but to alert the insurance company of loss.

### Insurance Company Adjustment

After the insurance company came to inspect the loss, they released a payment in the amount of \$3,296 which was a far cry away from what it would actually take to repair the Cleare's kitchen.

Below are some of the damages

### How Banhan & Mason Helped

After being outraged by the low offer, the Cleare's hired Banhan & Mason to represent them on their claim & obtain the funds needed to repair their home.

Once hired we did the following:

- Inspected the home & damages
- Reviewed the insured's policy
- Drafted an estimate

After reviewing the claim & findings, we decided that arbitration would be the best route of resolving this claim.

37 days later, we were awarded a settlement in the amount of **\$32,896** which was enough to take care of the extensive damage caused by the water in the Cleare's home.

### **What our client had to say**

"Banhan & Mason did a great job in helping me with my homeowners claim! Seeing the damage to my kitchen everyday stressed me a lot. Without them, I had no idea how I was going to afford to fix my kitchen. Thanks to Banhan & Mason, this is something I don't have to worry about anymore!"
