

Turning a stalled claim into a settlement for this GA homeowner

Some Quick Stats:

Type of Claim:

Water Damage

Amount Offered By
Insurance Company:

\$2,442

What We Recovered
For The Homeowner:

\$21,500

The Problem:

On October 26th of 2019, our client Mr. Theodore suffered a loss to his residence in the form of water damage. After finding about the loss, Mr. Theodore alerted his insurance company & remediation services were promptly called to contain all the water related issues.

Insurance Company Adjustment

After the insurance company came to inspect the loss, they came up with a figure just a bit north of \$2k to fix Mr. Theodore's issues.

In our client's own words:

"I couldn't believe they were so far off!" -*Theodore*

How Banhan & Mason Helped

Once we stepped in to assist Mr. Theodore in adjusting his claim, we did the following:

- Inspected the home & damages

- Communicated with the remediation company
- Reviewed the insured's policy
- Drafted an estimate
- Reviewed the insurance company estimate for missed items

After reviewing the claim & findings, we submitted our estimate to the handling adjuster for our client's claim.

After much negotiations & frequent follow ups with the insurance company, we were awarded a settlement in the amount of **\$21,500!** And all without having to go to court or having to attend a mediation.

In this claim, the insurance company stalled for a great while. But our persistence didn't allow them to simply drop & forget about this claim like they might do to a lot of other homeowners.

What our client had to say

"THANK YOU!! I was expecting a smaller settlement due to the low balled offer, but you guys really did a great job in turning my claim around"

-Theodore R.

Have a claim you were underpaid on? Not sure if you could obtain anything from your insurance company?

Contact us today to see if we can help you recover more money like we did for Mr. Theodore.
