

15,000 reasons why your small claim might be worth it

Some Quick Stats:

Type of Claim:

Water Damage

Amount Offered By
Insurance Company:

\$0 (Stalled claim)

What We Recovered
For The Homeowner:

\$15,000

The Problem:

In January of 2020, our client Mr. Keith suffered a loss to his residence in the form of water damage to his bathroom & walls. After finding about the loss, Mr. Keith was referred over to Banhan & Mason as a trusted firm in helping him settle his claim.

How Banhan & Mason Helped

Once we stepped in to assist Mr. Theodore in adjusting his claim, we did the following:

- Inspected the home & damages
- Reviewed the insured's policy
- Drafted an estimate
- Reviewed the insurance company estimate for missed items

After reviewing the claim & findings, we submitted our estimate to the handling adjuster for our client's claim.

In this claim, we experienced a much longer handling process than allowed by the State. The good thing, however, is that Banhan & Mason made sure to comply with all insurance company request & documented all correspondence.

This tipped things in our favor in which we were able to put the insurance department on notice of the lack of interest from the insurance company

After the insurance company finally made communication with us, we were awarded a settlement in the amount of **\$15,000!**

What our client had to say

"I am happy that I can now fix my home. I thought my small claim would not amount to anything. Thank you!"

-Keith

Have a claim you were underpaid on? Not sure if you could obtain anything from your insurance company?
